

Commit to the future...

UNIVERSITY OF TETOVA

Dear high school graduates,

A new phase of your life is now beginning for you. It is the phase of professional preparation. You must now make an important choice for your future. You must decide on the department in which you will study.

The knowledge and experiences that you will gain during your university studies will serve you in the exercise of your profession. By working with a sense of social responsibility, our society will also benefit from your work. Thanks to the new knowledge and experiences that you will gain during your studies, you will be able to take on social responsibility for the benefit and service of the public good and the community.

To fulfill the mission you have set for yourself, I invite you to attend your studies at the University of Tetova, which has marked and continues to mark great progress in terms of

quality, has created a wide network of cooperation with university institutions in the country and around the world, has been modernized in terms of technology and has developed in terms of infrastructure.

Thanks to its numerous achievements, today the University of Tetova ranks alongside important national and international institutions. Our university, with its qualified and dedicated staff, offers optimal conditions for quality studies.

Rector's address

It enables students to gain in-depth knowledge from various scientific fields, to develop their academic, intellectual and professional skills and enter the labor market in the future.

The University of Tetova, as a promoter of critical reflection on important social issues, prepares the professionals of tomorrow, who will contribute with responsibility to a better, nobler, more humane and more developed society.

Our university, with 12 thousand active students studying in three cycles of studies: undergraduate, master's and doctoral, has all the professional and infrastructural capacities for organizing quality studies. In thirteen faculties, with 95 first-cycle study Study Programs and 102 second-cycle study Study Programs, it offers numerous options for choice.

You can study social Science, medicine, natural Science, technical Science, computer Science, engineering, environmental Science, education, humanities, etc. Study Study Programs, structured, based on the latest scientific achievements, are in line with the demands of the labor market, both locally and internationally.

Our university also provides professional training and counseling, career guidance services, internships, and cultural and sports activities.

We also place special emphasis on the continuous development of infrastructure to harmonize it with the needs and demands of students. As a consolidated hub of higher education, the University of Tetova, among other things, also offers suitable conditions for the accommodation of students studying outside their place of residence.

University of Tetova has paid and continues to pay special attention to national and international cooperation. Thanks to cooperation with Albanian, regional and international universities, institutes and educational institutions, you will have the opportunity to gain new knowledge and experience even in the universities with which we have permanent cooperation.

I invite you to become part of our university family, to take advantage of all the opportunities offered and in the future to rise the name of our institution even higher!

We are looking forward to welcoming you!

Rector of the University of Tetova
Prof. dr. Jusuf Zejneli

Erasmus + is a Study Program for education, training, youth and sport funded by the European Union through the European Commission.

The University of Tetova has acquired the Charter (license) for Erasmus + in March 2013 and so far has signed student, academic and administrative staff mobility agreements with 78 universities from 13 different European countries.

Benefits from the Erasmus + Study Program:

- A unique study or teaching experience in Europe.
- Close acquaintance with Europe and European higher education.
- Language skills improvement.
- Exchange of knowledge, ideas and contacts.

Student mobility criteria:

- To be student of the second year and above.
- To speak English or the language of host University.
- To submit the application for mobility and documentation within the specified time limit.

Duration of student mobility:

- For studies: 3-12 months (1 or 2 semesters).
- For practical work: 2-12 months.

Criteria for academic and administrative staff mobility:

- To speak English or the language of host University.
- To submit the application for mobility and documentation within the specified time limit.

Duration of the academic and administrative staff mobility:

- For teaching: 2-5 days (8 lecture hours).
- For training: 2-5 days.

"If in the future you'd like to recall beautiful things from the time you were a student, the best experience you can give yourself is participating in Erasmus + for a study Study Program".

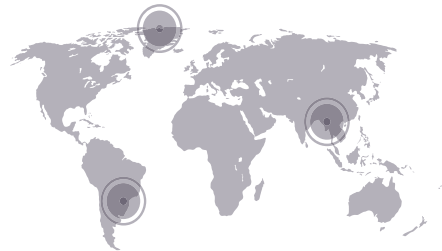

"Studying and living abroad is a great leap forward. Getting out of the comfort zone is not always easy, but it contributes to enhancing your personal and professional capabilities. The hardest part is making the decision, but we can guarantee you that you won't be disappointed".

"I would appeal to all students to not miss such an opportunity because it is a life changing experience".

"I honestly think it is a wonderful experience that one must live, as words aren't enough to describe it! I personally feel very privileged and lucky for the decision I made, although it hasn't been

something I planned beforehand. Nonetheless, since the first day it turned out that it was the best decision I've made and entered the Erasmus family".
